— THE PROBLEM

Why most businesses struggle

Disconnected information and manual processes hold back teams, customer service and growth.

No real-time access

Offline data delays visibility and decision-making.

Payment tracking

Outstanding balances become difficult to prioritise.

Manual errors

Repeated entry creates mistakes and financial losses.

Stock mismatches

Poor stock visibility leads to losses and delays.

Missed enquiries

Orders and customer opportunities fall through gaps.

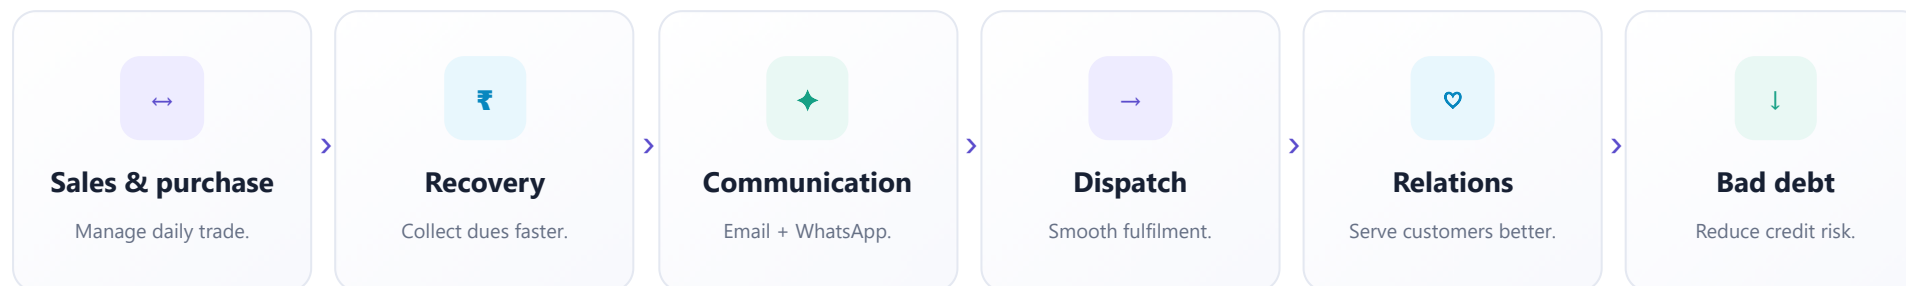

Staff dependency

Critical processes depend too heavily on individuals.

— THE SOLUTION

One ERP. Total control.

Connect the customer journey, financial operations and fulfilment in one intelligent system.

From first enquiry to final payment - every workflow stays connected.

— **COMPLETE ECOSYSTEM**

Everything in one platform

CRM

Manage enquiries, follow-ups and customer feedback.

Accounting

Maintain financial control with real-time records.

Inventory

Control stock, batches, serials and locations.

RMA

Manage returns, replacements and warranties.

GST

Stay filing-ready with compliant workflows.

Reports

Use analytics to identify trends and act faster.

— **POWERFUL ACCOUNTING**

Accurate & reliable

- ✓ All voucher types supported
- ✓ Real-time ledgers and reports
- ✓ Trial Balance, P&L and Balance Sheet
- ✓ Bank reconciliation
- ✓ GST-ready with direct filing

Clarity in every number.

Move from scattered records to one financial system your team can trust.
